CLTX513	CallTrax NEXT Disable Pipeline Types
	The following procedures will guide through disabling Pipeline Types created within CallTrax NEXT.
Order of Steps	**Tasks**
Step 1	Log into **CallTrax NEXT.**
Step 2	On the landing page, click on **Administration** from the main menu
Step 3	Hover the mouse over Setup, and click on **CallTrax Settings**
Step 4	Click on the **Pipeline Fields** tab
Step 5	To disable a Pipeline Type, click on the **edit** button to the left of the pipeline type name
10.1	Uncheck the **Active** box
10.2	Click the **Save** button
Note: Pipeline Types cannot be deleted once created, only disabled, due to the information that could exist on the fields within that pipeline type for previously created logs.
