

2009 National CRA, HMDA & Fair Lending Conference

We are narrowing down the choice between Charleston, SC and Las Vegas, NV and we will be making a decision very soon. In fact, I will be traveling to Charleston this week to scout out some possible venues. Once our city is finalized I will send out information on costs, room rates and dates. If you are working on budgeting for 2009 and need this information now, please contact me directly at 214-778-3033 or at noelles@gomarquis.com and we can help you get something together.

Version 8.5

CenTrax version 8.5 will be released soon and I just wanted to briefly tell you about one of the new features that I am really excited about. The DataPro will allow you to schedule a group of tasks to be performed either immediately or at a designated time in the future. You can include Importing, Replace Commands, Delete Commands, Geocode processing and Reports. As usual, we will be offering a FREE webinar when the release is available to help you get familiar with all of our great new features.

This version will also contain the 2007 HMDA & CRA aggregate data so that you may begin your analysis of that information. We are offering 2 webinars – September 22 and October 6 – on the fine points of getting the most from this data.

2008 Training Calendar

Speaking of webinars...I am revamping the web training schedule and will be adding a large number of classes for the Fall and Winter. Many of these classes will be on basic topics, such as Geocoding and Filtering, which have not been offered in this format before. The new schedule should be ready in the first weeks of August. I will send out a calendar and registration information soon.

Got Exams?

Email me at noelles@gomarquis.com and let me know about your upcoming exams.

Where to Look for Us

For now you will only find us inside well air-conditioned buildings here at home. We might think about venturing outside when it gets closer to fall.
