

Webinar Offerings

I have added some additional webinars to our 2008 training schedule. I am hosting “Webinar Week” and we will have different class each day the week of August 25th. Due to requests by some nice folks in Hawaii, I have modified the time that the classes will begin so they don’t have to be at work at the crack of dawn to participate. Sorry, west coast, that means you will be attending during the lunch hour. I will offer another “Webinar Week” beginning on September 29. Class will be offered every day that week except Friday.

Each webinar requires you to register separately. Sorry, I know that can be tedious but I did help a little by requiring you to enter less information on the newly created classes. Each webinar costs \$49 unless you complete the homework assignment provided after class and return it to me by the due date. If you are willing to take no more than 30 extra minutes to do the homework (sometimes much less), I will give you the class for free. You can’t beat that deal...

Here is the schedule for the next couple of months. Our website will be updated soon to reflect these new classes. In the meantime, I have provided a link for each class if you want to register now. I will also be sending out a reminder about 1 week before so if you forget or aren’t sure about the dates right now, you can always register later. If you get a reminder and have already registered for a class, don’t worry, the registration list is maintained by the host site and I usually don’t see it until the day before when I send out class materials.

Monday, August 25th Noon – 2 pm (this one was scheduled before...sorry Hawaii): **Administrators Only**

<https://www.gotomeeting.com/register/167934988>

- This session is for all CenTrax system administrators to learn about the technical aspects of the software. We will also cover user setup, system security and the system preferences.

Tuesday, August 26th 1 - 3 pm: Importing

<https://www1.gotomeeting.com/register/657664512>

- Come learn about the CenTrax importing feature. We will discuss the 4 common file types and how to setup and manage your import templates. We will also focus on field selection for importing including User Defined Fields and the Lookup Table. NOTE: This class material has been revamped/updated from previous webinars.

Wednesday, August 27th 1 - 3 pm: Data Management & Geocoding

<https://www1.gotomeeting.com/register/647160253>

- Join me as we discuss the manual data entry features including Adding and Editing records, the Validate feature, the Rate Spread Calculator and Geocoding the record. We will also cover the automated Geocode feature including CASS Certification & research alternatives.

Thursday, August 28th 1 – 3 pm: Filtering, Tools & Exporting

<https://www1.gotomeeting.com/register/405097456>

- Join me as we cover the 2 methods for creating queries, the data management tools such as Replace & Delete commands and the Exporting features. Exporting will touch on both Exporting for CenTrax and Exporting for other programs such as Excel or Access.

Friday, August 29th 1 – 3 pm: Reports...Basic & Integrity

<https://www1.gotomeeting.com/register/262676538>

- Come learn how to work with some of our most versatile reports. We will cover all of the reports in the Distribution/Summary & System/Other sections of the programs as well as some integrity reports. We will also look at the 2 distinct methods for creating data samples from within CenTrax.

Monday, September 22nd Noon – 2 pm: In Depth: Peer Reports

<https://www.gotomeeting.com/register/197408255>

- Come take an in depth look at the HMDA and CRA Aggregate/Peer reports. We will also talk about how to create and maintain custom peer groups for use with the aggregate data and Exam Tables.

Monday, September 29th 1 – 3 pm: Fair Lending Data Collection

<https://www1.gotomeeting.com/register/610665069>

- Come learn about the CenTrax importing feature as it applies to Fair Lending. We will discuss the 4 common file types and how to setup and manage your import templates. We will also focus on field selection for importing including User Defined Fields and the Lookup Table. NOTE: You do not have to have the Fair Lending capabilities to register for this class.

Tuesday, September 30th 1 – 3 pm: Fair Lending Underwriting features

<https://www1.gotomeeting.com/register/550691168>

- Join me to learn about the Fair Lending Underwriting feature. You will learn how to enter your underwriting conditions and how to identify records for analysis. NOTE: You do not have to have the Fair Lending capabilities to register for this class.

Wednesday, October 1 – 3- pm: Matched Pairs and other Fair Lending reports

<https://www1.gotomeeting.com/register/489464384>

- Join me to learn about the Fair Lending Matched Pairs report. You will learn how to create and save your tolerance levels. We will also discuss what constitutes a matched pair and we will review some of the other reports that will be useful for your Fair Lending program. NOTE: You do not have to have the Fair Lending capabilities to register for this class.

Thursday, October 2 1 – 3 pm: In Depth: Peer Mapping (Rescheduled from October 6)

<https://www1.gotomeeting.com/register/736385728>

- Learn how to create professional maps for your data and that of your peers using the HMDA Aggregate data. I will also teach you some tricks on how to map branch placement for other institutions.
